SST MICROWELDING.COM

LASE ONE 200

Microwelding equipment Lase One 200 – Power : Min. 1j / Max. 200 joules, including :

- Powerful, fast and accurate Lase One generator suited for welding precious materials, steel, aluminium alloys and copper alloys
- Model intended for :
  * Jewellery applications to weld precious materials (gold – silver)
  * Dental / Laboratory & prototyping uses
- Binocular magnifier (Zoom x4 - x20 - LED ring light adjustable in intensity – with anti reflection devise), equipped with an optical shutter managed by the generator
- Single arm adjustable in height, position memory and double pivot rotation from 0 to 360°
- Compact and adjustable microwelding torch (Length 1,5m std) & accessory kit
- Ultra flexible ground cable (Length 2m std)
- Footswitch pedal (Length 2m std)

REFERENCE : L1-200

PRICE FOR COMPLETE EQUIPMENT: 5 950 €

LASE ONE 200i

Microwelding equipment Lase One 200i – power : 1 to 200 joules, including :

- For Industrial uses
- Lase One generator - 200 Joules
- Welding torch (length 1,5m) & accessory kit
- Ground cable (Length 2m)
- Footswitch pedal (Length 2m)
- Stereo binocular microscope with articulated arm, equipped with controlled shutter zoom x4 x20 and cold Lighting by ring LED.

Scalable model

REFERENCE : L1-200I

PRICE FOR COMPLETE EQUIPMENT: 9 950 €

LASE ONE 250i

Microwelding equipment Lase One 250i – power : 1 to 250 joules, including :

- For Industrial uses
- Lase One generator - 250 Joules
- Welding torch (length 1,5m) & accessory kit
- Ground cable (Length 2m)
- Footswitch pedal (Length 2m)
- Stereo binocular microscope with articulated arm, equipped with controlled shutter zoom x4 x20 and cold Lighting by ring LED.

Scalable model

REFERENCE: L1-250I

PRICE FOR COMPLETE EQUIPMENT: 13 400 €

Mobile version: Including Lase One 250i welding solution + mobile serving cart equipped with electric cylinder operated by remote control. Accessories (micro welding torch, ground cable, footswitch pedal) are extended.

REFERENCE: L1-250I-M
PRICE FOR COMPLETE EQUIPMENT INCLUDING CART: 17 300 €

LASE ONE 300i

THE MOST POWERFUL WELDING SOLUTION OF THE LASE-ONE RANGE

Microwelding equipment Lase One 300i – power : 1 to 300 joules, including :

- For Industrial uses
- Lase One generator - 300 Joules
- Welding torch (length 1,5m) & accessory kit
- Ground cable (Length 2m)
- Footswitch pedal (Length 2m)
- Stereo binocular microscope with articulated arm, equipped with controlled shutter zoom x4 x20 and cold Lighting by ring LED.

REFERENCE : L1-300I

PRICE FOR COMPLETE EQUIPMENT: 16 800 €

Mobile version: Including Lase One 300i welding solution + mobile serving cart equipped with electric cylinder operated by remote control. Accessories (micro welding torch, ground cable, footswitch pedal) are extended.

REFERENCE : L1-300I-M
PRICE FOR COMPLETE EQUIPMENT INCLUDING CART: 20 700 €
