MULTI LAYER R2R COATING SYSTEM

MACHINE INFORMATION

- Good for continuous multi-layer module production by Slot Die Coating and Rotary Screen Printing
- Excellent uniform line width of Slot Die Stripe Pattern by own technology
- High accurate alignment with applying image sensor and actuator
- Option in applied example : Max. 180˚C Hot Air Dryer Module and UV Curing Module

DETAILS

SPECIFICATIONS

Unit : mm

DESCRIPTION	GENERAL SPECIFICATIONS
Machine Size	12600 x 1300 x 2200
Machine Speed	0.1 ~ 10m/min
Coating Method	Slot Die x 3 Set, Rotary Screen x 1 Set
Coating Width	Max. 300
Web Tension	Max. 50 kg·f
Dryer	Hot Air x 3 Set (Max.180°C), UV Curing x 1 Set
Metering Pump	Mono Pump Gear Pump
