DESIGNED FOR YOU

TOPST500-Rotational Cutting
Waterjet Cutting System

## Overview

**Save your time!** SJA-T500-RC is the waterjet cutting system that can be apply rotational cutting. This system is good for the soft materials like fiberglass, insulation, rubber, sponge, sound absorbtion materials that have shorter cutting time(or cut fast in speed) compare to its loading/unloading time from/to the table.

There are two table/grid(pallet) for material loading. You could cut the material from the first table and you could loading the material sheet or unloading the cutting product from the second table.

### Pulling Tank type

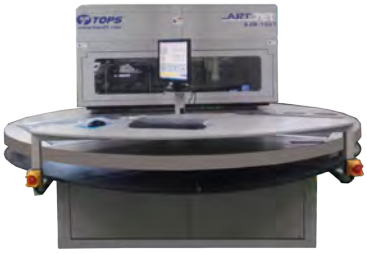

- Two separate catcher tank
- Catcher tank moving type
- Pull the tank mually/automatically
- Rail on the ground to pull the tank

### Pulling Grid type

- Two separate pallet grid
- Pallet on the table moving type
- Pull the pallet mually/automatically

### Turn Table type

- Two radius cutting table
- Table rotation type
- Turn the table automatically

## Advantages

- Save the production time by rotation cutting
- High efficient Loading-Cutting-Unloading process
- Improve the productivity with powerful applications
- Various design option to optimize industrial/business environment and condition

## Configuration

### Basic Configuration

SJA-T500-RC Table
SJP-6050d pump
VerticalCutting™ Head
TIS-Operating system

### Option

SJP-Intensifier/Direct drive pump
Water Chiller
ActiveCutting™ Head
Multiple cutting head
Multi-axis cutting head
Rotation table(Pulling /Turn)

## Model

SJA-T500-3015RC [1,520mm X 1,440mm X 2 Table]  3025RC [1,100mm X 2,400mm X 2 Table]
4020RC [2,020mm X 2,400mm X 2 Table]
