SC8200 SERIES

Direct drive, feed-off-the-arm, 3-needles, 6-threads,
double chain stitch sewing machine with puller

SunStar

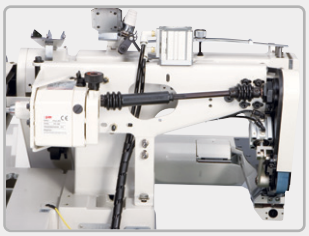

SC8200 SERIES

Direct drive, feed-off-the-arm, 3-needles, 6-threads, double chain stitch sewing machine with puller

Pneumatic presser foot

We promote the convenience in operation by selecting up-down method using a pneumatic presser.

Belt-type puller

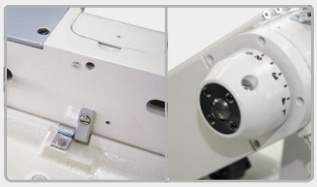

The puckering is reduced due to the wide surface area touched to the sewing materials, so it is possible to stitch elegantly.

Large roller type Puller (LRP) / Small roller type puller

(SRP-Light materials)

We use bearings all the connected parts to have stable durability. Operating performance is excellent by making the link-type driving structure, and the noise and vibration are minimized.

Push button method

The feed for stitch materials can be simply adjusted by rotating the pulley using the push button equipped in the bed.
