Post Bed, High Speed, 1/2-Needles, Lock Stitch Sewing Machine

KM-815C/825C Series

Features

- This sewing machine is designed to show excellent performance for the works of various sewing materials like shoes, traveling bags, leather tools, hats, and sandbags, which were not able to sew in the flat-bed type sewing machine.
- It is designed to secure as large working space as possible and bring the convenience to the worker.
- The hinge-type hook-cover method is adopted to bring the easy adjustment and after service feature.
- The presser pressure control method with the dual spring system can fully satisfy all of various sewing conditions.
- Reverse sewing is performed through the reverse lever, and stitch length is easily adjusted via dial control.
- Forward rotation, hook, slide-typed thread take-up level and smooth thread tension mechanism will enhance the product quality up to higher lever.
- Since the smooth and light knee lifting method is adopted, it is designed to bring work convenience to the worker and largely contribute to the productivity increase.

Application

- Post bed structure showing high performance with curved-surface sewing fabric
- Accurate and even sewing
- Semi-automatic lubrication system
